Many students choose to complete the internship during the summer.	***Students intending to pursue programs in the medical field (such as physical therapy) are advised to contact appropriate faculty in the science department for guidance in selection of minors and/or additional courses.	

Completing the above requirements will meet the requirements for a B.A. in Exercise Science under the 2008-09 catalog.

-Courses are offered on a rotating basis; refer to the 5 year course offerings for each area. This degree offers flexibility as many of the courses listed can be taken at different times.

-All degrees require at least 128 semester hours of credit with a minimum cumulative grade average of "C" (2.00) or the minimum grade average specified by individual program requirements (if higher). A minimum of 30 semester hours (12 of which must be on the 300 & 400 level and 15 of which must be in the student's major) must be taken in residence.

-A second bachelor's degree requires an additional 30 semester hours above the 128 hours.
