Impact on P-12 Learning and Development (CAEP R4.1)

Impact on P-12 Learning and Development (CAEP R4.1)

- In Spring 2020, the EPP planned to collect Fall and Spring MAP (NWEA) assessment data from the students of second year teachers who were teaching in Nebraska Lutheran schools in Spring 2020. Due to the effects of COVID19, these data were not available.
- In Spring 2021, the EPP collected MAP assessment data from the students of four (4) second year teachers who were teaching in Nebraska Lutheran Schools in Spring 2021. The data that the EPP collected and provides here is based on a sample population and serves as a pilot for future data collection of MAP scores from second year teachers who graduated from the EPP.

Learning from MAP Assessment Data Pilot

- The EPP members will need professional development regarding MAP scores to effectively analyze and interpret MAP assessment data.
- Comparing Fall and Spring scores can demonstrate a measure of student academic growth. All scores for Spring were higher than Fall scores.
- When fall scores are available to the EPP, Spring scores may not be. We may have gaps in data.
- The project will continue in Spring 2022 for further EPP growth and learning.

Part 3

**Completer Effectiveness in Applying
Professional Knowledge, Skills, and Dispositions
(CAEP R4.1)**

Completer Effectiveness (Initial) (CAEP R4.1)

Data collection for Indicators of Effectiveness was collected in Spring 2021 from program completers in their second year of teaching and their principals.

Three points of data were collected:

1. Principals **evaluated program completers' teaching performance in their second year** using the *Nebraska Department of Education Clinical Practice Evaluation* (2017).

4 = Advanced; 3 = Proficient; 2 = Developing; 1 = Below Standard.

Benchmark scores on the evaluations, set by the EPP: Scores of 3 = Proficient.

2. Program completers in their second year of teaching **self-evaluated their teaching performance** using the *Nebraska Department of Education Clinical Practice Evaluation* (2017).

4 = Advanced; 3 = Proficient; 2 = Developing; 1 = Below Standard.

Benchmark scores on the evaluations, set by the EPP: Scores of 3 = Proficient.

3. P-12 students of program completers in their second year of teaching **evaluated teaching performance** of their teacher (program completer) using the *Panorama Student Survey, validity report* at https://go.panoramaed.com/hubfs/Panorama_January2019%20Docs/validity-brief.pdf

2021 Nebraska First Year Teacher Survey

Introduction

The Nebraska Department of Education (NDE) administered the Nebraska First Year Teacher Survey from mid-March to late April 2021. Surveys were distributed to the principals of first year teachers, and to the first year teachers themselves, who completed their preparation programs all EPPs in the state. Concordia University was a participating preparation institution. Evaluation indicators are based on the InTASC Model Core Teaching Standards,

Results

The results of the questions concerning the impact on student learning (by principals and teachers), continued employment (by principals), and preparedness (by teachers) are displayed below. Also displayed below are the survey indicators, frequency of responses and means per indicator, for both principals and teachers.

2021 Nebraska First Year Teacher Survey (CAEP R4.2, R5.3)

Impact on Student Learning Reported by Principals of 2019-2020 Program Completers

	Highly Effective 4	Moderately Effective 3	Somewhat Effective 2	Ineffective 1	Total Responses with Mean
Based upon the performance of this first year teacher, how would you rate his/her impact on student learning?	7 41.1%	8 47.1%	2 18.2%	0 0%	17 3.29

Benchmark set by EPP: 85% of principals report first year teachers to have highly effective or moderately effective impact on student learning.

Data findings: 88.0% of principals report that first year teachers have a highly effective or moderately effective impact on student learning.

2021 Nebraska First Year Teacher Survey (CAEP R4.2, R5.3)

Impact on Student Learning Reported by First Year Teachers/2019-20 Program Completers

	Highly Effective 4	Moderately Effective 3	Somewhat Effective 2	Ineffective 1	Total Responses With Mean
Based upon your performance as a first year teacher, how would you rate your impact on student learning?	1 9.1%	8 72.7%	2 18.2%	0 0%	11 2.91

Benchmark set by EPP: 85% of first year teachers report highly effective or moderately effective impact on student learning.

Data findings: 81.8% of first year teachers report that they have a highly effective or moderately effective impact on student learning.

2021 Nebraska First Year Teacher Survey (CAEP R4.2, R5.3)

Continuing Employment Responses by Principals of 2019-20 Program Completers

	Yes	No	Total Responses
Would you consider this teacher effectively prepared for continuing employment in your district?	17 100.0%	0 0%	17

Benchmark set by EPP: 85% of principals report that they consider the first year teacher effectively prepared for continuing employment in the district.

Data findings: 100% of principals report that they consider the first year teacher effectively prepared for continuing employment in the district.

2021 Nebraska First Year Teacher Survey (CAEP R4.2, R5.3)

Preparedness Responses by First Year Teachers/2019-20 Program Completers

	Yes	No	Total Responses
Do you believe you were prepared to be an effective first year teacher?	9 81.8%	2 18.2%	11

Benchmark set by EPP: 85% of first year teachers report that they believe they were prepared to be an effective first year teacher.

Data findings: 81.8% of first year teachers report that they believe they were prepared to be an effective first year teacher.

Nebraska Clinical Practice Evaluation Scores for 2020-21

Initial Completers

- As a summative evaluation, student teachers are assessed by university supervisors with the Nebraska Clinical Practice Evaluation (NCPE)
<https://www.education.ne.gov/wp-content/uploads/2018/04/TPPA-CPE-SummativeRubric-HorizontalForm.pdf>
- The target score for all candidates is 3 *Proficient* for each standard.
- Each Initial Program's mean score for 2020-21 program completers is 3 *Proficient* or above on each standard.

edTPA Scores for 2020-21 Initial Completers

- The EPP has chosen to use edTPA as a performance assessment for each candidate during student teaching.
- The means for each Initial Program's total scores for 2020-21 program completers range from 28 to 56 (15 point rubric).

Means (15 point rubric)

- Early Childhood Inclusive 38
- Elementary 43.4

Data-Informed Decision-Making for Program Improvement

Data-informed Program Improvement Process

- On March 17, 2021, the Education Advisory Committee met for the purpose of making recommendations for program improvement, review the Technology Plan, and review the NDE Rule 20 revision progress.
- On May 10, 2021, the EPP Initial Programs met to:
 - Review data from the Title 2 report, CAEP annual report, NDE annual Rule 20 report, 2019-20 completer edTPA and Praxis content test data, graduate follow-up data and data for current candidates.
 - Identify trends in data that may lead to program improvement.
 - Make decisions for program improvements in 2021-2022.

Data-informed Program Improvement Process (cont.)

- The EPP Initial programs made the decision to continue work on the previous year's program improvements:
 - 1. Align Student Teaching Formative Assessment with coursework. Modify courses as needed.
 - 2. Identify curriculum areas where edTPA-driven modifications are advisable.
 - 3. Technology Plan further development by Technology Team.
 - 4. Recruitment Plan further development by Recruitment Team. See EPP Initial MINUTES 5.10.2021, attached.

Due to CAEP Advanced Interim visit in 2022, Advanced program data will be available in 2023.
